Keenetic Hopper (KN-3810)	KN-3810-01-EU	AX1800 Mesh Wi-Fi 6 Gigabit Router with a 4-Port Gigabit Smart Switch and USB 3.0 Port

*1201 and 574 Mbps are maximum wireless signal rates derived from 802.11ax specifications, used when connecting to clients using four spatial streams and an 80/40 MHz channel bandwidth for transmission and reception. Actual data throughput and wireless coverage will vary and may be lowered by the features and settings of the equipment, the number of client devices in the network, obstacles to signal propagation, the presence of other wireless networks, and/or radio interference.
